

STAND IN YOUR WATCH

(PRECLUDES DANIEL'S 70TH WEEK)

Mavis duCille

(This is only TRACK 1 from the Message Daniel's 70th Week)

...something that the Lord just quickened to my heart to say that He was bringing it to my attention: That every person when you are called of the Lord you have a certain position in the army. When a person is placed in a certain position I think it is referred to as "THAT WATCH". So when we are placed in a certain position it does not matter what the position is, we have to be faithful to stand in that watch and don't look around to see what the other person's watch is and wish that I had been in that position, but if we are faithful in the position in which we are placed then God will glorify us in that position. And if we are not faithful then we will lose out with God.

I remember having met a sister once and she said, "Well, I don't know what my calling is in the Lord and I don't know what really God would want me to do. But there is something that is laid on my heart and just to make sure that the building is prepared for the meeting, just to make sure that there is..." (In that place they didn't have electricity so they used a Coleman lamp for giving them light.) And she said, "I made sure that that was equipped and everything was ready."

I said, "Well praise the Lord. You be faithful in that because God says if we are faithful in a few things He will make us ruler over many things." (Mt 25:21)

So let us stand upon our watch. I will stand upon my watch and I will be faithful in that which the Lord has given unto me.

You know I have thought of so many times God put people together who are just opposites and in working out the balance of living and making life a success you find that each person's need is taken care of because each one helps the other one to get rid of that which is within him or her that is making the path difficult that you cannot be totally submitted or surrendered to the Lord. So one cannot say, "Well, I wish that I had that person for my husband, or I wish that I had that person for

my wife” because it wouldn’t work. Just be faithful in that which the Lord has given unto you, that place which the Lord has placed us. I will stand upon my watch.

Do you want to be a soul-winner? Begin here and let it spread and just stand in the place that the Lord has placed us, has put us and be faithful in that little thing where nobody sees but you and God in that little corner to shine faithfully that we can be crowned. Because of all though it might not be coming up here and ministering, it might not be doing any great thing that everybody can see, there is a tendency that the carnal mind or the soul wants to be seen, it wants to be on the housetop. But praise God, if we can shine in that little dark corner where the Lord puts us, has placed us and as we learn to shine there then that light will spread out to reach somebody else. There is never a situation that the Lord would take us through that does not benefit somebody else. Somebody else out there is waiting for your experience and until you overcome in your little dark corner and put the enemy under foot – we are not ready to show the light.

So I will stand upon my watch and I will be faithful in that which the Lord has placed me that I might be crowned.
